4. The University receives many inquiries for "directory information" from a variety of sources, including friends, parents, relatives, prospective employers, and other institutions of higher education, honor societies, licensing agencies, government agencies, and the news media. Each student is advised to carefully consider the consequences of a decision to withhold "directory information." The University, in all good faith, will not release directory information that a student requested to be withheld, and any requests from persons or organizations outside the University will be refused unless the student provides written consent for the release.
